Coralogix

CLOUD-NATIVE CYBERSECURITY

Full-Stack Protection Against Modern Cyber Risk

Get a comprehensive view of your cloud environment's security and compliance, with expert teams deployed 24×7 to provide support for more efficient remediation.

Act Faster with Dynamic Alerting & Automated Incident Response

Get extensive coverage for unknown unknowns in your system and reduce false positives. Coralogix uses ML capabilities to automatically update alerts, IP blacklists, threat signatures, and more. Automate your response with integrations to security management tools for end-to-end forensics.

Continuously Monitor Cloud Security Posture

Automated posture assessments ensure that you are compliant with best practices and compliance standards.

- CIS
- NIST
- SOC
- PCI
- ISO
- HIPAA
- & More

Continuously Monitor Cloud Security Posture

Continuously evaluate your systems for known security vulnerabilities and potential weaknesses to be remediated.

Improve Threat Detection with Our 3-Click Security Traffic Analysis

With just a few clicks, set up threat detection based on real-time network traffic and host monitoring with automated mirroring and the Coralogix STA.

1 Deploy the Coralogix STA

2 Mirror traffic to that server

3 Analyze threats immediately

Enterprise-Grade Solution

✓ Meet the highest standards of availability, security, and compliance including GDPR, SOC2, PCI, and HIPAA certifications.

✓ Multiple geographic data centers available for compatibility with various local privacy laws.

✓ Easily manage multiple teams, fine-tune permissions with RBAC, and enjoy the convenience of SSO.

✓ *FedRamp coming H1 '22!*

HIPAA COMPLIANCE | Privacy Shield Framework | ISO 27001 Certified | ISO

FCA FINANCIAL CONDUCT AUTHORITY | GDPR READY | PCI DSS COMPLIANT | AICPA SOC 2

Work with Snowbit's Expert Security Teams

Snowbit is a cybersecurity technology innovator, part of the Coralogix group, offering a Managed Extended Detection and Response (MxDR) with expert teams available 24×7 to support your team and help accelerate threat remediation.
